**IMPORTANT REMINDER REGARDING
EEE AND MOSQUITO CONTROL**

The Board of Health encourages anyone who is outside, day or night, to take preventative measures and use mosquito repellent with deet.

It remains critically important for people in communities at critical, high and moderate risk for EEE to continue to take personal precautions against mosquito bites. These steps include using EPA-approved bug spray, wearing long sleeves and pants outdoors to reduce exposed skin, and cancelling outdoor activities in the hours from dusk to dawn when mosquitoes are most active. **DUSK IS CONSIDERED TO BE ONE HALF HOUR AFTER SUNDOWN.**
