

MOSQUITO DUNKS

The Rochester Board of Health is giving out Mosquito Dunk to Residents of Rochester who have standing water on their property creating a Mosquito breeding nuisance. The limit is two mosquito dunks per Resident.

The mosquito dunks last up to 30 days in standing water and will kill the mosquito larvae. They are not harmful to other animals. If you have small areas of water to treat, you can break the dunk into pieces and treat all the areas of water with just one dunk.

If you have any questions, please feel free to call the Board of Health office at 508-763-5421 ext. 202
