

Landowner – Applicant
Addendum to Application to
The Rochester Conservation Commission

An integral part of the Conservation Commission's information gathering process prior to deliberation and voting on Applications to the Conservation Commission is a site visit or visits by the Members of the Commission or the Conservation Agent, as required at the discretion of the Conservation Commission.

The Rochester Conservation Commission and the Conservation Agent are hereby given permission to conduct site visits on the property referenced in the application hereto attached. All visits will be scheduled in advance at a time acceptable to the Applicant.

I(we) understand that refusal to grant permission for site visits to the extent requested by the Conservation Commission or the Conservation Agent will cause my application to be denied due to incompleteness of the information required for full deliberation and voting by the Conservation Commission.
