

**Suggested Title:**

Rochester Community Electricity - Electricity Disclosure Label Updated

**Suggested Text:**

Our Town's electricity supply program Rochester Community Electricity launched in March 2023 to provide new electricity supply options to our residents in businesses. All electricity customers in Rochester are eligible to join the program at any time! If you participate in our program, you will see "Rochester Community Elec-Direct" listed as the "Supplier" in the Supply section of your Eversource bill.

As part of the Town's electricity agreement, our electricity supplier provides a label, called the Electricity Disclosure Label, that describes the fuel sources and emissions characteristics of our supply. The State of Massachusetts requires that the label be updated quarterly, and the most recent Label is always available on the Program website: [Electricity.TownOfRochesterMass.com](https://Electricity.TownOfRochesterMass.com)

Participating in Rochester Community Electricity does not change your utility company - Eversource continues to provide Delivery services to our Town, including outage repair, storm response, and they continue to handle all electricity billing.

If you have any question about the program, please contact us using one of the methods on our support page here: [Electricity.TownOfRochesterMass.com](https://Electricity.TownOfRochesterMass.com)
